**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

Notice of the Office communication was sent electronically on above-indicated "Notification Date" to the following e-mail address(es):

pairedocketing@ssiplaw.com

Continuation of Substance of Interview including description of the general nature of what was discussed: To avoid the Faltys reference, the Examiner suggested that Applicant amend Claims 1, 30, and 35 to more closely define the embodiment of the IMD depicted in Fig. 10B of the originally-filed disclosure of the instant application. For example, the Examiner suggested that Applicant change each of Claims 1, 30, and 35 to firstly define that the plurality of interconnected modules are horizontally distributed in a manner such that a space is defined between each of the interconnected modules and to define the flexible overmold as being one that at least partially encapsulates each of the interconnected modules "wherein the flexible overmold exists within and fills said space". Applicant agreed to attempt to amend Claims 1, 30, and 35 along the lines of the Examiner's suggestions. A draft supplemental response should be faxed to the Examiner by Monday February 9, 2009. Upon Examiner approval, a formal supplemental response should be filed by Friday February 13, 2009.
